The Magickal Talismans Of King Solomon

Synopsis

Throughout my many years in the occult, I recall many wonderful things. I was enamored by so many different systems that I just had to try them all. For the most part, I did. Some with great success and some not so much. One aspect of the magickal practices that really interested me was the use of talismanic or seal magick. I used all kinds of talisman, and each had its own energy and feel. However, I found the Seals of Solomon (also known as the Talismans of Solomon or the Pentacles of Solomon) to be very interesting. Partly because there is so much information about them, finding the information was a breeze. Well, as easy as it could be in the early 80s. Now one can find almost everything about them on-line. There is one problem though, the information on-line and in many books on the subject are very difficult to understand, and as you may have guessed, if you have read my other books, I don't use conventional methods when I perform magick. I found the convoluted and difficult ways described in the books to be a distraction. A distraction that will most likely turn many people off. It is for this reason I am writing this book. We tend to hyper-focus on the Judeo-Christian aspects only and for the most part that is what I will also do in this book as well. However, there is also another, just as ancient tradition of Solomonic magick in Muslim tradition as well. I will attempt to synthesize all the information in such a way that will make the use of Solomonic talisman effective and approachable | With that, let us begin.

Baal kadmon has given us another excellent book here and that's no surprise, but I must say that even by his high standards this is a winner. I got it on kindle first but then realised that the paperback is better because you need to copy/print the talismans so now the paperback is on it's way. The author gives a whole load of history on Solomon and that is not only fascinating but really helps to get a feel for the Magick. I have had huge success with Baal Kadmon's books and am really looking forward to getting going on this stuff because it really resonated with me when I read it. This is a winner!

This book is quite educational on the topic of the Seals of Solomon. It goes into detail about how the seals came to be. It also tells not just how to use them but when to use them. I am very interested in all sorts of books on religions of the world, mythology, and belief systems of people both ancient and modern. So this book was right up my alley as they say. I will be reading more of Baal Kadmon's books after this one.

I read the book. Love it! Easy to understand, very practical and tells you STEP BY STEP the rituals you'll need to perform and materials for all the TALISMANS. A BOOK TO ALWAYS KEEP. EXCELLENT REFERENCE!

The history is quite interesting for the newcomer, but the talismans themselves are lower quality than the ones you find free online. In the book, they are very small and blurry. Also, the author advises you to have them engraved in metal, which adds a layer of complication to this process.

Well written and easy to follow instructions. A must have for anyone seeking to better him/herself. Enjoyed reading and look forward to the book.

This book is very informative and includes detailed directions on how to use each seal. In addition, the author lists further "ingredients" that one would need to charge each talisman for the first time. However, it also warns against using more than two of the seals at once. I think that's a good idea for a lot of different reasons. Overall, a good read.

I like Baal Kadmon's writing style. It's a book of history, mystery and magick. Pretty cool, huh?

Excellent read for the open minded person. Thanks for everything. 8-)
