Evil Spark (Dark Magic Enforcer Book 2)

Synopsis

I'd had less than a week to recover from an incident that left me half-dead. My body was battered and bruised in ways I can't even begin to describe. Dark magic use had consumed me, spat me out a husk of a man. I was little more than flesh and bone, weary to my very soul. So, of course, there was a knock at the door. My smile faded, happy face turning to tears, as Kate—a gorgeous vampire and the woman I lust over at every available opportunity—told me the news. Dark magic came to me as my eyes snapped to black and my tattoos felt fit to burst with the energy they channeled. I'm Faz Pound, a.k.a. Black Spark, Dark Magic Enforcer, and a goddamn wizard!! I'll tear apart hell itself to get at anyone or anything that dares hurt the people I care about. Nobody messes with me or mine and lives. Nobody. Things are about to get nasty.

Customer Reviews

One thing you don't want to do is cross Faz Pound, aka Black Spark. He's recuperating after his encounter with the Armenian succubus, but when he learns that his grandma is missing he goes into fight mode. There is, though, much more at stake. The abduction of his grandma, a powerful witch, threatens war between the humans and the vampires, a war that no one will win. Evil Spark by

Al K. Line continues the adventures of the Enforcer known at Black Spark, as he turns over rocks trying to save his missing grandmother. Riveting dialogue and nonstop action, paranormal and just plain abnormal, marks this second book in the series. I don't know if anyone else has noticed the similarity of the author's name to a certain baseball player, but I have to say, he hit a home run with this one. You'll be glued to your chair as Faz pounds his adversaries into the woodwork (sorry, but I can't help the puns), leaving no stone unturned trying to protect the only family he has left. I received an advance review copy of this book in exchange for my unbiased review.

Full disclosure – I received a free copy of this book from the author as part of his "A-Team" in exchange for an honest review. Evil Spark resumes our story of Faz Pound, Dark Magic Enforcer, shortly after the conclusion of Black Spark. Having vanquished Ankine Luisi and corrected his mistake from the previous week, Faz retires to the sanctuary of his home to recover from his dark magic use. When he is awakened by Kate with the news that his Grandma has gone missing, followed by the disappearance of Mage Rikka, Faz realizes that there will be no rest for this Enforcer. Joined by Dancer, Intus and a few unlikely allies, he sets out on a race against the clock to find his loved ones and exact revenge as only he can. There definitely is no down time in this series as we are thrust right into the action from the opening pages all the way to the thrilling conclusion. The Hidden world is explored in more detail and we get a glimpse into the various factions and politics. If you are a vampire fan, you will not be disappointed as Faz finds himself right in the middle of House Taavi – not a good place to be at all. While questions are answered, the mystery of his parents' death deepens as Faz still attempts to find the immortal responsible. Another great installment and a very nice set up for many more events to come. I am eagerly awaiting the next adventure.

Faz Pound, AKA Black Spark, is still recovering from his last mission. When he finally manages to leave his sick bed and feel like he might live, once again he is thrown head-first into a mess. His grandmother has been kidnapped, her apprentice murdered by a vampire, and both sides accusing the other. As he starts investigating the kidnapping, someone else Faz is close to is kidnapped: Mage Rikka. Faz is frantic to find out who is behind this before all-out war starts. But, he has too few clues to go on. Will a war start between the mages and the vampires? Or will Faz manage to find them both before it's too late? Only one thing is certain: no one messes with Black Sparks' family, no one. This is the second book in the series and having read the first, the thing I must say upfront is this book is better than the first one. It was a lot less repetitious, maybe still a little with his

feelings for Kate, but much better. That aside, the action, the writing, and the pace were all wonderful in this book. I love the character development going on and hope to see much more in the future. I did have a problem with Faz being a little emotional all the time. I know it is his grandmother, but I would think being an enforcer, and one of the best at that, would make him a little more able to push the emotions aside. And, the plot was good, but a little thin. I felt less like Faz figured it out what was going on and more like he just stumbled on the answers. However, I truly believe this author is going to get better and better and will become a force to be reckoned with. Be on the ground floor so you, too, can say "I knew him when" • This book was just a fun little ride! A very solid 4 stars. Thanks to the author for the free e-book in exchange for an honest review. This same review will be posted on both Goodreads and .

This is the second book in the Dark Magic Enforcer series and as with the first book I thoroughly enjoyed reading it. It was suspenseful and full of twist and surprises. The action was steady but also fast paced in some areas. The ending had me wishing I had the third book to find out what happens.

But start with the first. I'm exhausted, it's after midnight and I have to be up in 6 hours, but it was worth it. I'm gonna go crash now. Before I do something stupid like start the third book and stay up all night. So good.

A great second book in the series. Characters are developed more and past history is revealed. This book continues the story line of the previous. The only problem I had was the redundancy of explaining the affect magic has on the user. However, It is needed as the reaction results in their capability to function quickly after use.

I quite liked this book, and the series so far. I read some of the 1-3 star reviews, and although I agree with what they don't like, those things don't bother me. It's a fun, well paced book series, perhaps lacking a bit in character development and suspense build up, but overall fun reading. There are far far worse authors out there. I do like the world the main character lives in. Quite fun. Could be expanded further in the future for more plotlines and reader enjoyment.
