Customer Reviews

In this book youâ™™ find very basic concepts like the definition and colors of auras and youâ™™ also understand some advanced techniques so perceive and develop your aura. Sincerely I enjoyed

this book, it's full of really interesting information and lots of activities and tips to understand and developed from the most basic concept about auras to the most abstract one, all by yourself. Recommended reading to psychic enthusiasts.

Am not a person with a developed sixth sense or that kind of sensitivity to detect anything beyond natural, but I have thoroughly enjoyed reading through this book about auras. It explained clearly how to observe auras and how helpful it can be to understand the other person's state of being. Though it requires a lot of practice and patience to master reading auras, it is relatively easy to learn and anyone can do it. The chapter on how to cleanse your aura was of particular interest to me and I appreciate the insights on how to strengthen your aura. It was really helpful.

An interesting subject, and the first time I've ever read a book on the topic. This book teaches you how to see auras. It's not an overnight process, as the book says, but something that will take regular training on your part. Now after having read this, I find myself analyzing people, mostly while standing in lines, sitting in coffee shops, or riding the train to and home from work. Though, it's difficult to hold focus in those settings, and I've yet to see actual colors, I feel that I'm feeling some energy surrounding these people. Like I'm reading them. Perhaps I was just oblivious to my surrounding before, which I believe is safe to say, but there's something to this. I'll keep trying. This could be life changing.

Yes, I have always wondered about the thing called auras and how they go about or how to know that I have them. I have read several books about it, but then it seems incomplete as I still don't know what it is all about. The difference with this book is that it has given a lot of useful topics that added to my total comprehension. Among those that captured my 100% interest are those that discussed the perks and significance of Auras, the one that explained the meaning of the aura colors, and knowing how to detect auras in other people. This book has been worth the grab.

I like this book as a beginner. It can help in developing the peripheral vision and understanding the auras of other people. There is a section in which meaning of different colors of Auras are explained. I particularly loved to read it. An interesting explanation on Auras and what they are, why we don't see them, how one can train to see them and what is gained by that. Interesting read.

This book was recommended to me when I first started working with meditation, visualization, and

reiki. This is one of the best books I've found on Auras. It doesn't focus on all the obscure Ayurvedic framework. It is definitely from a "new age" perspective, but is a great conduit for creativity, cleansing and karmic boundary setting. It is a wonderfully easy way to wrap your head around the concepts regarding your energetic body. A fantastic way to learn how to get rid of stress!

I took this book because i wanna improve my inner self in order to overcome problem that certainly only myself can help and this book really did amaze me because i never thought that learning Aura could help not only develop my inner self but also helps me understand what people are and how they mean to me! Great book indeed!

interesting read! Never knew about these powers of auras! Knowing these gives you great advantage in life and glad this is the book I got. I was able to understand it in one read. It was explained carefully and clearly for those who hasn't heard of auras before. I actually have no idea about it before but this book introduced it to me pretty well. I enjoyed it! 5 stars for this book by Crystal Muss. Will get more of her books soon :)
