## Fire Magic (City Of Dragons Book 3)

## Synopsis

Alastair Cooper, my abusive ex-husband, is dead. He was found in dragon form in a dragon slayer's cooler, an arrow in his heart. But before I can start dancing for joy, I find that I'm the main suspect in Alastair's murder. The only person the police think is more likely to have committed the crime is Lachlan Flint, my boyfriend. After we're arrested and spend a night locked up in a jail that leaches the magic from our bones, we know we've got no choice but to find out who really killed Alastair. We've got to clear our names. I can't go to prison. I've got a baby on the way, and I have to do whatever I can to protect my unborn child. Of course, Lachlan doesn't know about that. How do I tell him I'm pregnant? With Alastair's child?

## Book Information

## Customer Reviews

I've read the previous two books as well (plan on reading the fourth too). Penny is growing as a character, so is Lachlan. It's good to see both of them begin to face their own pasts and peel back

the layers. They do a bit much of back and forth on the investigation that I think was unnecessary. I also like the way the dynamics of abuse is being explored and portrayed and Penny trying to start the process of reprogramming her own thought process. Loved the ending as well and that should flow nicely into book 4.

Keeps getting better and better. I like how Penny and Lachlan seem to grow in this book and there are some surprises along the way in this one! Doesn't seem to be a dull moment, keeps you reading and you don't want to put it down.

Penny has been through a lot and now, when it appears that she is finally free of Alastair, her and Lachlan are being accused of his murder. Yeah they have plenty of motive and it's not like Penny can explain that she'd have destroyed the body better if she'd been the one to kill him so it's up to her and Lachlan to figure out who really did it. For fans of the first two books this is a wonderful addition to what I hope will be a long series. For new readers, it would be better to go back to the first installation, Fire Song. I love that the characters are well developed and the secondary plots help with the character growth and series progression. I've read so many series lately that start with well developed characters but they don't seem to change or grow and it quickly stunts the series, that is not the case here as each book just keeps getting better.

This is one of those rare series where I'm on book three and still want more, more, more! I adored the first two books (to recap: dragon shifters with plot!), but I feel like Fire Magic is the strongest of the lot. There's so little I can say without spoiling the absolutely enticing twists, but the character development and relationship building keep kicking it up a notch while the mystery and world-building continue to connect. Read it!
