Customer Reviews

Iâ™m posting this review on all the books in this series that I have read on my Kindle â“ and I have read all 16 of them at this point! The 17th book is coming out soon, and I canâ™t wait for it! I got hooked on this series and read all the published books in less than a month. I enjoy reading series of books in chronological order when I discover a new author, and this series doesnâ™t disappoint. I enjoy the character development of Sarah and Carter, and every single mystery has been interesting and different from the others. I highly recommend this series for anyone who is a murder mystery fan!

Perfect series for the mystery sleuth. If you love a good mystery and a strong will female lead, you will love this series. Sarah Woods is an ideal heroine and role model for any woman looking for a bit of mystery, laughter, sexy guys and overall quirky fun.

As i stated before her books are so exciting right away. I never want to put them down. She does a great job of covering up who done it until the last chapter. Thank you Jennifer Jennings for your writing style. I will no doubt have read her entire selection of the Sarah Woods Mysteries.

Boy what a great author., No horror, no swearing and no heavy sex. My kind of author. I can't seem to put her books down once I start reading them. I am going on her 15th book now and then her 16th. I wish she wrote faster as I can't get enough of her....Great author great plots and great characters.....

I read the first book where Sarah was a massage therapist and her receptionist was murdered. This prompted Sarah to become a private investigator. After that book I was hooked and read all of Jenningsâ™ books over the last several months. I canâ™t wait until her next release comes out.Jenny Jennings writes with such clarity and ease that just reading her words is a pleasure. I was never confused as to the characters or their relationship to the plot. Never had to reread a chapter or several paragraphs to get my place. Each of her stories can be read in two or three nights. They are suspenseful, interesting and fun with no dark foreboding scenes. Each story involves a murder and Sarah and her partner Carter, also a private I, go to work solving the murder. They have some close calls, but always come out solving the mystery. The sex scenes are mild and fit nicely into the plot.Sarah and Carter use modern tools such as cell-phones, hidden cameras and tracking devices secretly placed on the suspectâ™s car to help solve the crime. They work with the local police which helps them in their crime solving pursuit. The stories are reasonable and believable.I can highly recommend Jenningsâ™s novels and think you will enjoy them.

Great Series! I have read all of the books through Volume 5 so far. I still have more to go. Great characters and plots in all the books. Suspense, humor, romance and conflict. Great Author. Highly recommend all books written by Jennifer L. Jennings.

I have read every book in this series. Now reading series 6. They are addictive! The reading is easy and compelling. Can't put them down! They are a bit quirky with unexpected twists and turns.

When does the next volume come out? Exciting reading. Keeps you entertained
