This book covers the wandering Silent Strider Tribe, exiled from Egypt by Sutekh's curse. The book jumps right away into the Tribe's history, starting along the Nile and the steppes of Central Asia. A lot of information is given on Egypt, the battle between Sutekh and Osiris, and the Tribe's eventual curse and exile. Mention of important historical events is made, such as the rise of Christianity and Islam, the Crusades, the Ottoman Empire, the Gulf War, construction of the Aswan Dam and so forth, as the Tribe spread through the Middle East, Africa and India seeking a new home. There's also a lot of metaplot stuff (Beast Courts of Asia, Black Tooth, the Ahadi, the Red Star and Ravanna's awakening) and even sensitive political issues affecting the Striders (Islamic fundamentalism, the Intifada, 11-9, genocide against the Roma, etc). Chapter two covers the beliefs and practices of the Striders, including views on the Litany, Auspice roles, stereotypes of other

Tribes and Fera (their relationships with the Bastet, Mokole, Mummies and Setites are all quite interesting) and so forth. Stuff on breeds and kinfolk is discussed, such as their human kin (ranging from Bedouin and Tuareg nomads, Ethiopians, Roma, Jews, nomadic Native American Nations and so forth) and wolf kin (the wolves of Ethiopia, Central Asia and even the plains of North America). In addition, there's mention of all the Camps, including a new look at the Daggers of the Night (vampire killers) and the Eaters of the Dead. Then there's a look at Strider lands, not just Egypt and the Middle East, but also the Garou caste system in India, the Ahadi of Africa and much more. Plus a nice sidebar on vampire hunting.
