500 Things People Believe That Aren't True

Synopsis

Purgatory is never mentioned in the Bible. Most deserts aren't made of sand. Pterodactyls weren't dinosaurs. Genetically modified food existed since the Stone Age. We have no idea what Ancient Egyptians looked like. Women could vote since 1867. Fast-Food chains have existed for 1,900 years. Cryogenics doesn't involve freezing people. You can get appendicitis more than once. Holland is not The Netherlands. The Hanging Gardens of Babylon never existed.

Customer Reviews

Some facts I already knew but many were new to me. Going to add my new knowledge to the list of very random facts that I tend to pull out of my...hat and totally amaze my family and friends. I liked this quick read a lot!

The book is written with ample research, sorting out some great facts that we don't notice normally. The facts are appeared to be true when it was applied to my life, this is an extraordinary write. I will recommend it.

It's a funny book with some great facts. Sometimes the sarcastic tone is overdone, which is why I didn't give 5 stars. I have fact checked several pieces of information and all appear to be correct.

A very interesting read! Mr. Egan has done a superb research on many items. Enjoy.
