The Worst President In History: The Legacy Of Barack Obama

Synopsis

As Barack Obama's presidential failures keep adding up, remembering them all can be a challenge. Matt Margolis and Mark Noonan have compiled everything you need to know about the presidency of Barack Obama (so far) into one book. Now you can easily find all the information that was ignored by the media and that Barack Obama would like you to forget. Did Barack Obama really save this country from another Great Depression? Did he really improve our country's image around the world, or unite America? What about the new era of post-partisanship and government transparency? Did he really expand health coverage while lowering costs and cutting taxes? The Worst President in History: The Legacy of Barack Obama compiles 200 inconvenient truths about Obama's presidency - the facts that will shape his legacy: His real record on the economy; the disaster that is Obamacare; his shocking abuses of taxpayer dollars; his bitterly divisive style of governing; his shameless usurping of the Constitution; his scandals and cover ups; his policy failures at home and abroad; the unprecedented expansion of government power... and more. All of these facts are now at your fingertips in a single source. The Worst President in History: The Legacy of Barack Obama is your ultimate guide to Obama's real record - the record he'd like history to forget.

The best political book I have read this year. It's also a great reference for anyone who wants a rundown of everything that has transpired during this era of "Hope and Change" that is (soon to be "was") the Obama Regime. This book is important because the media deliberately ignored most of the events that reflected negatively upon Obama, choosing to disappear those down the memory hole. If you read Margolis & Noonan's book alongside other recent political books written by the Left, the latter read like alternate histories from a parallel universe. Margolis & Noonan have the facts on their side, in a quick read that connects the dots from 2009 to the present and argues that Barack Obama is (soon to be "was" once he leaves office in 2017) the worst president in history. If you notice, the media is working overtime on securing a legacy for Obama...and of course we all know that for the rest of our lives the media will try to aggrandize Obama and make him into something special out of value-signaling. What students of history will be confronted with is the uncomfortable fact that the media has an emotional investment in claiming that Obama was great because he was biracial and his skin color is what is most important to them. Margolis & Noonan present the facts of his presidency and detail all of the corruption, mistakes, arrogance, naiveté, deceit, hubris, machinations, and Alinsky dirty tricks that define this man and his failed regime. The propagandists of the Left will hate this. Academics will despise (and probably try to censor) these inconvenient truths. But no honest and complete portrait of Obama can ever be drawn without the material that Margolis & Noonan artfully present.
