I was honoured to have been introduced to this wonderfully written book. I have been interested in the topic of NDEs for most of my life. Love The Person You're With brought an incredible insight as to how I live my everyday life, and what I'd like to change about it to fulfill my life's purpose. There is so much to learn from people who have experienced this phenomenon, and I trust it will make a positive change in those who read it.

In *Love the Person You're With*, David Sunfellow has compiled a treasury of some of the most inspiring and profound excerpts from accounts of the many near-death experiences he has studied over a long career devoted to this astonishing phenomenon. The book is full of these gems of wisdom that together sparkle with the light of all the major facets of the NDE. I was particularly struck by the beginning section of the book, for example, which focuses on the lessons of the life review that will both astound and enlighten any reader who wants to know what these experiences have to teach all of us. However, this is not a book to be read straight through. Instead, it really deserves to be savored slowly so that these stories can sink in and be pondered. I myself had to read it that way to begin with. And now I am reading it again and try to start each day by reading just one story and reflecting on it. That way they can stay with me and make me more aware of what really matters in life -- everything, even the most seemingly insignificant act, when done with love. This is one jewel of a book, a real treasure, and I have been recommending it to everyone I know. For anyone who wants to learn what near-death experiences are all about, this is the book for you.

I've studied near death experiences since 1979, when I wanted to prepare my dying father for the afterlife. David has synthesized some of the most respected near death experiences in the field, and organized it beautifully. I believe that the best way to help people prepare for their passing is to read about NDEs, hopefully before they get sick. They also teach us how to live, and what is truly meaningful. I have already referred it to several friends.

I could not put this book down! I'm so grateful these NDEs were shared with David!! And now the world!! Each one spoke to me about Life and Death and Beyond!! They reminded me who I am, why I'm here and why there is nothing to fear! So much Love packed into this small book!! Thanks to this author for putting some of the best of the best into *Love the Person You're With*!!

A neatly packaged book, so easy for a person to pick up and read, think about and then put back for another moment to read and contemplate. This collection of excerpts from every day people who have the courage to share their near-death experiences is truly remarkable as it makes this phenomenon accessible for anyone to read and consider. It is an important piece of work as we begin to share and appreciate our world and why we are all here.

Love this book!! found it uplifting, inspiring, and motivating. The compilation brings the reader to a new level of being and creates the desire to be a better person; connected to all. This lovely book is easy to read and life changing â “ I highly recommend it.

Thank you David Sunfellow for the collection of near-death experience stories that appear in â œLove The Person You're With." Along with highlighting the importance of paying attention to "the little things" in life, I was thrilled to read how deeply we affect nature. Current scientific research indicates that plants can feel human emotions and pain. When I read that near-death experiences were saying the same thing, I felt like the right and left hemispheres of my brain were coming together! This made me feel complete; that I am one with the universe; that everyone and everything, including plants and animals, are all connected! When books like yours make these connections clear, we don't need to die and come back to know that we are all one. The stories you included in your book also helps us understand the purpose of human life. I highly recommend this book to all levels of readers, especially those who wish to learn more about near-death experiences and those who are grieving for friends and loved ones who have passed from this world to the next.-- Chyna Wu, M.A Grief Specialist

I ABSOLUTELY LOVE LOVE LOVE this book!! The first night I opened it up I could not put it down and easily read up to page 104. The next evening I finished it. Although this subject is not foreign to me in that I've read NDE stories before, this book offers up an assortment of compelling, truly awesome encounters from many folks who have passed. Even more interesting are the few important common threads that tie all of these stories together with a common message from people who do not know each other. On a personal note, I found that this book gave me a sense of peace and also in many ways confirmed my own beliefs about what we are here to do on this earth plane and what is truly important. I HIGHLY recommend David Sunfellow's extraordinary book. I LOVED It and plan on purchasing several copies for my friend and family for the holidays. Thank you David!
